PROFILE

Computer Engineering student with hands-on experience in full-stack web development, SaaS platforms, and database-driven applications. Working knowledge of Java, SQL, React.js, and Node.js, with a strong foundation in Data Structures, Object-Oriented Programming, DBMS, Computer Networks and Operating Systems. Experienced in developing scalable, user-centric software solutions through collaborative projects and internships. Passionate about software engineering, system design, and continuous learning.

EDUCATION

- B.Tech in Computer Engineering
  Shri Govindram Seksaria Institute of Technology and Science | 2023 – 2027 | CGPA: 7.90
- CBSE Class XII — Central Academy School | 2022 | 89.8%
- CBSE Class X — Kendriya Vidyalaya No. 2 | 2020 | 89.6%

WORK EXPERIENCE

M9Vends

Software Development Intern | Apr 2026 - Present

- Developed responsive and reusable React.js components for a multi-tenant SaaS platform, implementing role-based dashboards and user interfaces.
- Integrated frontend modules with APIs and collaborated with backend developers to support authentication, device management, and real-time monitoring features.
- Improved application usability by resolving UI issues, optimizing frontend performance, and participating in feature development using Git in a collaborative Agile environment.

RELEVANT PROJECTS

Personal Finance Management System — Jul 2025 – Dec 2025

- Designed and normalized a relational database schema to manage users, accounts, transactions, budgets, and loans using SQL.
- Implemented secure CRUD operations and optimized SQL queries for efficient data retrieval and financial record management.
- Developed features for transaction tracking, budget analysis, and expense monitoring to provide users with financial insights.

Carbon Footprint Tracker Dashboard — Jan 2025 – Jul 2025

- Developed responsive frontend interfaces using React.js, JavaScript, HTML, and CSS, including authentication and user profile modules.
- Built an interactive dashboard to visualize users' carbon emissions and sustainability metrics.
- Prepared UML diagrams and Software Requirement Specification (SRS) documentation to support system design and development.

SKILLS

- Development: HTML, CSS, JavaScript, Raect.js, Node.js, APIs
- Programming Languages: Java, C, SQL
- Database: PostgreSQL, MySQL
- Tools & Platforms: Git, GitHub, VS Code, Figma, Canva, Clickup
- Concepts: OOP, DBMS, Data Structures & Algorithms, CN, OS, Agile
- Operating Systems: Windows, Linux (Basic CLI)
