SUMMARY

Computer Engineering student with hands-on experience in full-stack development, **SaaS applications, REST APIs, database-driven systems**, and scalable web solutions. Skilled in **Java, SQL, React.js, Node.js, JavaScript, and Git**, with strong foundations in **Data Structures & Algorithms, OOP, DBMS, Operating Systems**, and **Computer Networks**. Experienced in software development, **API integration, debugging**, and collaborative engineering projects, with a strong interest in **system design** and **backend development**.

EDUCATION

- B.Tech in Computer Engineering
  Shri Govindram Seksaria Institute of Technology and Science | 2023 – 2027 | CGPA: 7.80
- CBSE Class XII — Central Academy School | 2022 | 89.8%
- CBSE Class X — Kendriya Vidyalaya No. 2 | 2020 | 89.6%

WORK EXPERIENCE

M9Vends May 2026 - Aug 2026
Software Development Intern

- Developed **reusable React.js components and modular software interfaces**, improving scalability, maintainability, and consistency across the company's applications.
- Built **interactive dashboards and application workflows** for the company's SaaS platform, contributing to feature development and system integration
- Collaborated on **API integration, debugging, testing, and Git-based development**, analyzing and resolving software issues across application modules.

RELEVANT PROJECTS

Placement Simulator Aug 2025 - Present
Tech Stack: React.js, Node.js, REST APIs, Supabase, Tailwind CSS, Groq

- Designed **modular software architecture and end-to-end workflows** for an AI-powered placement and assessment platform.
- Integrated **REST-based services with React.js modules** and implemented structured **PostgreSQL** data models for candidate, assessment, and scoring workflows
- Contributed to **system design, technical specifications, debugging, and application integration** across multiple modules.

Personal Finance Management System July 2025 - Dec 2025
Tech Stack: TypeScript, HTML, CSS, Node.js, Express.js, PostgreSQL

- Designed a **normalized relational data model** with 8+ entities, implementing keys, constraints, and relationships for reliable data management.
- Developed **SQL-based data access operations** for efficient storage, retrieval, and modification of application data.
- Applied **database design and optimization principles** to improve data consistency and maintainability.

SKILLS

- **Development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs
- **Programming Languages**: Java, C, SQL, Python
- **Database**: PostgreSQL, MySQL, MongoDB
- **Tools & Platforms**: Git, GitHub, VS Code, Figma, Canva, ClickUp, Google Colab
- **Concepts**: OOP, DBMS, Data Structures & Algorithms, Computer Networks, Operating Systems, Agile
- **Operating Systems**: Windows, Linux
