Vaidic Paliwal

UG 4rd Year
SGSITS, Indore
D.O.B : 2004-10-03
Email ID :
vaidicpaliwal01@gmail.com

Enrollment No.: 0801CS231151
Department : Computer Science
Gender : Male
Specialization : None
Mobile # : 9302026348

Education

Degree / Certificate	University / Board	Institute / School	Year of Passing	CGPA / Percentage
Graduation	RGPV	SGSITS, Indore	2027	8.18
12th	CBSE	St. Joseph Co-Ed School ar-era colony,Bhopal	2023	83%
10th	CBSE	St. Joseph Co-Ed School ar-era colony,Bhopal	2021	92%

Scholastic Achievements

- Scored 97.25 percentile in JEE Mains 2023, securing an All India Rank of 31,798 out of over 12 lakh students.
- Solved 235+ Leetcode questions.

Work Experience

Infosys Springboard Internship 6.0

Sept 2025 – Nov 2025

- Worked as an Infosys Fellow Intern on an AI-powered Customer Support Assistant with OCR project.
- Developed a full-stack AI application using HTML, CSS, JavaScript, Node.js, Express.js, PostgreSQL, Python, Pytesseract, Ollama (Qwen2.5), Docker, REST APIs.
- Integrated Optical Character Recognition (OCR) using Python (Pytesseract) to extract text from uploaded images and generate AI-powered responses.
- Designed responsive frontend interfaces, developed REST APIs, integrated AI services, managed PostgreSQL database operations, and focused on performance, usability, and real-world AI application development.

Projects

1) AI-powered Customer Support Assistant with OCR

Sept 2025 - Nov 2025

- Built a full-stack AI-powered customer support web app that lets users upload images and automatically extracts text using OCR.
- Integrated a local AI chatbot using Ollama (Qwen2.5) to answer user queries based on the extracted text and conversation history.
- Implemented features including multiple image upload, image preview, chat history, search functionality, responsive UI, and light/dark theme for an enhanced user experience.
- Integrated the database to PostgreSQL for reliable, production-ready storage of chat history and OCR data.
- Containerized the entire application using Docker and Docker Compose, enabling one-command setup and deployment.
- Developed REST APIs, integrated OCR and AI services end-to-end.

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, PostgreSQL, Python, Pytesseract, Ollama (Qwen2.5), Docker, REST APIs.

2) Customer Churn Prediction Platform

May 2026– July 2026

- Developed a full-stack Machine Learning based web application to predict telecom customer churn using a trained ML model.
- Built an interactive dashboard with live analytics, prediction history, and business insights by integrating a PostgreSQL database.
- Implemented a responsive frontend for customer data input, prediction results, dashboard, analytics, and history with seamless frontend-backend communication.
- Developed REST APIs using Express.js, integrated a Python ML prediction service, and stored prediction records in PostgreSQL for real-time updates.

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, PostgreSQL, Python, Scikit-learn, REST APIs, Machine Learning.

Platforms Worked

- Operating Systems : Windows, Linux
- Programming Skills : C++, JavaScript, SQL, Python
- Web Designing : HTML, CSS, JavaScript , Node.js, Express.js, REST APIs, PostgreSQL, MySQL
- Software Skills : Git, VS Code, Jupyter Notebook, Google Colab,

Courses Undertaken

Core

- Data Structures and Algorithms
- Object Oriented Programming
- Computer Networks
- Database Management Systems
- Operating Systems
- Agile Software Methodology

Breadth

- Web Development
- Machine Learning

Positions of Responsibility

Team Leader

Sept 2025 - Nov 2025

- Led a team of 5 as Group Leader in Infosys Springboard Internship 6.0

Student Coordinator

Aug 2024 – Sep 2024

- Served as a Student Coordinator during the First-Year Induction Program, mentoring 50+ juniors.

Extracurricular Activities

Badminton (Interschool Level)

2021

- Represented my school in an Interschool Badminton Championship and won a Silver medal
